

Regional Account Manager

Required Experience: >10 Years

Location: – Mumbai

About CleanStart

CleanStart is revolutionizing software supply chain security through our advanced vulnerability database platform and CleanStart product line. We provide hardened, vulnerability-free container images with built-in security, compliance, and performance benefits. Our mission is to transform container security by eliminating pre-existing vulnerabilities and providing full visibility and control over the software supply chain.

Role Overview

At CleanStart, we are seeking a dynamic and results-driven **Regional Account Manager** to lead strategic sales engagements with enterprise customers in India. This role is pivotal in driving revenue growth, expanding market share, and building long-term relationships with key accounts in the cybersecurity SaaS domain.

Key Responsibilities

- **Account Ownership:** Manage a portfolio of major enterprise accounts, acting as the primary point of contact and trusted advisor.
- **Sales Strategy:** Develop and execute strategic account plans to achieve quarterly and annual revenue targets.
- **Customer Engagement:** Build deep relationships with C-level stakeholders, understanding their cybersecurity challenges and aligning solutions to business outcomes.
- **Solution Selling:** Position the company's cybersecurity SaaS offerings effectively, leveraging a consultative sales approach.
- **Cross-functional Collaboration:** Work closely with Sales Engineering, Marketing, Customer Success, and Product teams to deliver value throughout the customer lifecycle.
- **Forecasting & Reporting:** Maintain accurate pipeline and forecast data in CRM systems; provide regular updates to leadership.
- **Market Intelligence:** Stay informed on industry trends, competitive landscape, and regulatory developments impacting enterprise cybersecurity.

Required Qualifications

- **Experience:** Minimum 10 years of enterprise sales experience, with at least 3 years in cybersecurity or SaaS.
- **Track Record:** Proven success in managing complex sales cycles and exceeding quota in a high-growth environment.
- **Knowledge:** Strong understanding of cybersecurity frameworks, threat landscapes, and enterprise IT environments.
- **Skills:** Excellent communication, negotiation, and presentation skills; ability to influence senior decision-makers.
- **Education:** Bachelor's degree in Business, IT, or related field; MBA or relevant certifications (e.g., CISSP, CISM) a plus.

Skills & Competencies

Sales & Business Acumen

- **Strategic Account Management:** Ability to develop and execute long-term account strategies that drive customer value and revenue growth.
- **Consultative Selling:** Skilled in uncovering customer pain points and aligning cybersecurity solutions to business outcomes.
- **Negotiation & Closing:** Strong deal structuring and closing capabilities, especially in complex enterprise environments.

Cybersecurity & Technical Knowledge

- **DevSecOps Familiarity:** Understanding of DevSecOps principles and how security integrates into CI/CD pipelines, cloud-native environments, and agile development workflows.
- **Industry Expertise:** Familiarity with cybersecurity domains such as cloud security, endpoint protection, identity & access management, and threat intelligence.
- **Solution Understanding:** Ability to articulate technical concepts to non-technical stakeholders and collaborate with pre-sales engineers effectively.
- **Regulatory Awareness:** Understanding of compliance requirements (e.g., PDPA, GDPR, ISO 27001) relevant to enterprise customers in Singapore.

Relationship Management

- **Executive Engagement:** Proven ability to build trust and credibility with C-level executives and senior decision-makers.
- **Customer Success Orientation:** Focused on long-term customer satisfaction, retention, and expansion.

Operational Excellence

- **Forecasting & Pipeline Management:** Proficient in using CRM tools (e.g., Salesforce) to manage pipeline, forecast accurately, and report performance.
- **Cross-functional Collaboration:** Works effectively with internal teams including marketing, product, and customer success to drive outcomes.

Personal Attributes

- **Results-Driven:** Motivated by targets and performance metrics, with a strong sense of ownership.
- **Adaptable & Resilient:** Thrives in a fast-paced, evolving environment and handles challenges with a growth mindset.
- **Communication Skills:** Excellent verbal and written communication, presentation, and interpersonal skills.

Preferred Attributes (Startup Culture Fit)

- Adaptability and resilience in fast-changing environments.
- Entrepreneurial mindset with a proactive approach.
- Resourcefulness and ability to thrive with limited resources.
- Strong collaboration and team spirit.
- Curiosity and commitment to continuous learning.
- Bias for action and comfort with experimentation.
- Customer-centric approach with empathy for pain points.
- Tech-savvy and data-driven decision-making.
